

Let's Stop D.I.Y...!

DIY: Do It Yourself

**An unique seal for  
sterilisation containers**

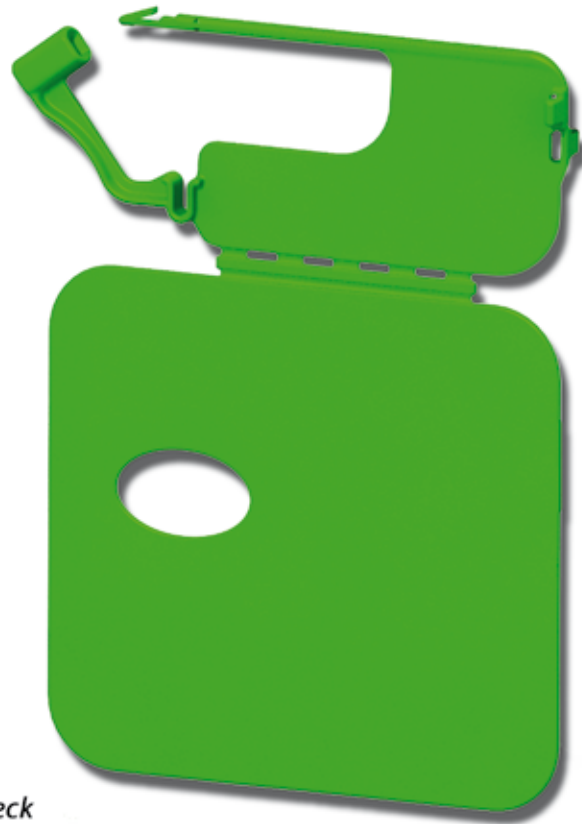

# SEALabel®

*An universal seal with  
a label holder.*

*The label holder folds & clips on  
the seal and is positioned on  
the front side of any container.*

*The oval window allows you to check  
if the SEALabel® is correctly locked.*

*The electronic traceability label  
is stuck on the SEALabel® holder.*
