SHARPS CONTAINERS

Sharps Containers

Occupational Safety is important for us, and clinical practioners should not be exposed to unnccessary risks. Ranging from small needles to surgical sharps instruments collections, all of our Sharps Containers products conform to major international safety standards minimizing the chance of accidental sharps injury. Each has a temporary and a permanent locking mechanism, and made of puncture resistant materials. Each product has a label with clear fill line and installation procedure on it.

3 in 1 Locking System

Features:

Dual locking system -

Permanent and temporary, to prevent loss of content during transit or usage.

Needle detaching holes-

3 needle detaching holes for different syringes: lure lock, slip tip and eccentric tip. Prevent direct contact with needle. Protect the healthcare practitioner.

International Compliance -
